

Parkers offers on-line hire service

HIRE STANDARDS... WITH CALL2HIRE

Some of the products available from the Call2Hire range

Parker Building Supplies now offer yet another essential service for the building industry. **CALL2HIRE** offers daily, weekly and long-term hire on an extensive range of self-drive plant such as excavators, diggers, dumpers and rollers, plus a range of power tools, and we'll deliver FREE within three miles of our base at Heathfield, East Sussex.

All of the plant and machinery we supply is under three years old, high quality and robust enough to deal with any situation, and everything is regularly serviced by experienced staff to ensure that your hire will go as smoothly as possible.

Excavators and Diggers

CALL2HIRE's range of excavators and diggers is manufactured by Kubota, universally known for their reliability, durability and outstanding operational abilities. The range feature high output, strong torque, and smooth, powerful operation and are supplied with a variety of 'Quick Hitch' buckets. Canopied or cabbed versions available.

Dumpers and Rollers

Our dumpers and rollers are made by Terex, the proven industry leaders, and are tough enough to handle every application. The range includes Tracked or Wheeled Dumpers, with a variety of features such as narrow access, power swivel, high-tipping capacity, and hydrostatic drive powered by water cooled Kubota engines.

CALL2HIRE also offer Single Drum Rollers suitable for both patching drives and consolidating paved areas for domestic use, Roller Breakers complete with hydraulic road breaker and trailer, and small rollers with high compaction rates suitable for drive construction and the rolling of finished surfaces such as Tarmacadam or shingle drives.

So why not give **CALL2HIRE** a try... just click the link on this website. We're sure you'll be pleased with the result.
