

Parker Building Supplies supports local school with donation of materials for raised vegetable beds ...

## PARKERS PLANTS SEEDS FOR THE FUTURE

At Parkers we have always taken a keen interest in supporting local schools, partly because by supporting our community from the grass roots upwards we are enhancing the area and enabling it to flourish.

As you can see from this gratefully received thankyou letter, Rocks Park Primary School were looking to develop the garden areas surrounding the school, to enable the children to get involved with growing their own vegetables.

Thanks to donations of wood from our Uckfield branch and to a considerable amount of hard work by teachers, parents and pupils, they are now the proud owners of five raised vegetable beds.

The children are now able to grow a wide range of vegetables and some fruit bushes and are looking forward to the opportunity of selling their home grown produce.

So, by offering a small gift of materials we appear to have grown more than just some excellent local vegetables, we've produced a number of budding entrepreneurs in the process !

Dear Mr Pitts

Please accept on behalf of the whole school, parents and teachers, two letters written by year three, (chosen as a competition) to express our thanks for your kind donation of wood to Rocks Park School.

As the children have stated in their letters, we are now the proud owners of five raised beds. We are growing many different types of vegetables and some fruit bushes. Of course this year is experimental and we are hoping to continue to grow many more vegetables in the years to come. The children have also initiated the idea of marketing their produce in the future. We are taking photos all the time and will send you some soon.

As suggested earlier in our conversation, we would like to show our gratitude by exhibiting to our many visitors, a sign or plaque on behalf of Parker Building Supplies. Do you perhaps have one of such kind that you would like us to use, or would you be happy for us to create our own one? Please let me know as soon as you can by contacting me at: [mcole@rockspark.e-sussex.sch.uk](mailto:mcole@rockspark.e-sussex.sch.uk)

Once again, thank you for your very kind donation. We are all very grateful.

Yours sincerely  
Mrs Cole (year 3 teacher)
