

GREAT SUMMER OFFERS FROM PARKER BUILDING SUPPLIES

The latest Parker Building Supplies discount leaflet has now been published and could be landing on your doormat any day now. The current edition features a range of products for the professional and keen amateur landscape designer including ...

ARBORDECK REVERSIBLE DECKING

Arbordeck is a British manufacturer with over 165 years of experience. The company has established a strong reputation within the timber industry for the wide range and high quality of its decking products. Arbordeck Reversible Deck Boards are supplied in a variety of lengths from 2.4m x 5.7m and manufactured from pressure treated timber that has been impregnated with Tanalith® E, which means that it requires no painting or staining to keep it preserved and offers long-term protection against fungal decay. The product comes with a 15 year performance guarantee against decay or insect attack.

Reversible boards are more versatile than single profile boards, offering the best

of all worlds as they can be used with the smooth face up for large areas, as they are more comfortable to sit

and walk on, or with the grooved side up to highlight features and changes of level. The flat face drains faster than grooved and is less likely to collect debris and so is easier to clean and treat.

Decking can be enhanced by adding extra detail such as planters cloaked in decking to integrate soft landscaping, and water features incorporating lighting to add a further dimension for those long summer evenings. Even garden structures such as pergolas can be created using deck boards.

Whether it's for entertainment, dining or relaxing, Arbordeck helps you extend your living area and create your ideal outdoor space.
