

Parkers extends Premier Paving Centre displays

MORE PREMIER PRODUCTS AT PAVING CENTRES

You may notice some changes at **Parkers Premier Paving Centres** at our Tonbridge, Hailsham, Hassocks, Haywards Heath, Eastbourne, East Grinstead and Uckfield branches with a number of new products available.

We have made a number of improvements to our landscaping displays at Tonbridge, where we have extended our range of Stonemarket block and decorative paving. Likewise at East Grinstead we have added Brett block paving displays which enable us to more easily show off the versatility of the brand.

At Hailsham and Hassocks we have added a new decking display featuring good-looking, non-slip, child-friendly, low maintenance, softwood and hardwood decking which transform gardens and patios into sophisticated, well-planned outdoor entertaining zones. The centre also offers joists, balustrades and railway sleepers and the decking timbers are available in lengths of up to 4.8 metres.

From paving and flagstones to decking and fencing, from garden buildings and reclaimed timber to walling concrete and rockery stones, our branches feature extensive ranges of landscaping products available from stock or to order.

Part of our wide range of paving and decking products now on display and available at PPPC branches
