

Parker Building Supplies helps local playgroup with donations

# PBS HELPS PLAYGROUP WIN THEIR BATTLE

When Battle Pre-School Playgroup came to us for help to make necessary improvements on their play area project, we went above and beyond expectation and we are proud to say it has made a considerable difference.

The playgroup was formed in 1967 and enthusiastic response from local parents proved that the facility was very welcome and urgently required. The original building quickly proved to be too small but, entirely due to the hard work and dedication of the founder members, sufficient funds were raised to enable them to purchase their present Asten Fields premises outright.

As you will see below, the group's fundraiser (with the famous name of Jo Lyons) wrote to thank us for our donations of ballast, edging timber and pegs for the recent development of their play area. The finished effect made it well worth the effort and the children apparently love the graphics and bright colours.

The Battle Pre-School Playground premises and newly renovated, multi-coloured play areas, transformed with the help of PBS donations
