

Trade day at refurbished branch

UCKFIELD LAUNCH DAY

**Uckfield branch
SHOWROOM
LAUNCH DAY
1st October**

Don't miss the official relaunch day of our newly refurbished Uckfield branch on October 1st or you might be missing out on some impressive special offers and some very useful product demonstrations.

We're lucky enough to have persuaded a number of leading brand names to send their representatives with a range of products that you may have always wanted to try out but never had the opportunity. Products like the market leading Paslode nail gun and Quikdrive auto-feed screwdriving system, ACO drainage systems, Keystone lintels, Bradstone and Pavestone landscaping products and many more besides. We'll also have a representative from the Federation of Master Builders, who will be on hand to answer your questions about this highly regarded organisation and how membership might be of great help for your business.

Check out our new features

Among the new features at the Uckfield branch is our display of Sterling Ironmongery products, including stylish brushed chrome, brass and traditional black door furnishings. We've increased our ranges of safety workwear including high-visibility clothing, gloves and boots in a wide size range. And you can now buy nails and screws and other essential fixings by weight, from a number of tubs we have on display, which means you no longer have to buy full packs of products you may never find a use for again.

The branch is open, as usual, from 7.30am but the trade day demonstrations (and free breakfast) runs from 8am to 4pm. Don't miss it ... and be sure to tell your friends and colleagues!
